- add a drug to GSC's formularies;
- exclude or remove a drug from GSC's formularies regardless of Health Canada approval and/or the existence of provincial coverage;
- place restrictions on a formulary drug as determined by GSC. Restrictions may include, but are not limited to, GSC's pre-approval of the drug before the claim can be reimbursed, requirement to obtain the drug through an approved provider, and requirement to obtain a lower cost alternative of the same treatment such as a generic or a biosimilar drug.

If approved by GSC, this plan includes drugs with a Drug Identification Number (DIN) that do not legally require a prescription, including but not limited to nitroglycerin, insulin and all other approved injectables, as well as related supplies such as diabetic syringes, needles and testing agents, limited access drugs and some over-the-counter drugs. In addition, this plan includes all vaccines.

Certain drugs require prior authorization from GSC before your drug claim can be reimbursed. Further, certain drugs defined by GSC as specialty drugs may be required to be purchased from an approved pharmacy that is a member of GSC's Specialty Care Program before your claim can be reimbursed. You can find out if your drug requires prior authorization or is included in GSC's Specialty Care Program either by checking your coverage under "Your Health Benefits" on *GSC everywhere*, or by contacting GSC's Customer Service Centre.

Maintenance drugs required to treat lifelong chronic conditions may be required to be purchased in a 90-day supply of a prescription at any one time. Non-maintenance drugs may be purchased in a supply not exceeding 3-months (90-day) supply of a prescription at any one time. However, for all drugs, 6 months for a vacation supply may be purchased and not more than a 13-month supply in any 12 consecutive months.

Reimbursement will be made for the cost of the lowest priced equivalent drug based on specific provincial regulations, unless your medical or dental practitioner has written that there is to be no substitution of the prescribed drug or medicine.

NOTE:

Drug Benefit over age 65: The Drug Benefit co-pay and the deductible (where applicable) in your province of residence **are** eligible benefits.

If you are younger than age 65, you must enroll for the GSC Prescription Drugs benefit plan and GSC will be the only payer. If you are age 65 or older, enrolment in RAMQ is automatic, enrolment in the GSC Prescription Drugs benefit plan is optional, and RAMQ would be first payer.

If any provisions of this plan do not meet the minimum requirements of the RAMQ plan, adjustments are automatically made to meet RAMQ requirements.

Alternate Benefit Clause

This benefit plan will reimburse the amount shown in the Fee Guide for the least expensive service or supply where two or more professionally accepted courses of treatment are a benefit under the plan. The covered person can choose to have a more expensive treatment performed, however reimbursement will be limited to the cost of the least expensive alternative.

Predetermination

Before your treatment begins if the total cost of any proposed treatment is expected to exceed \$500, it is recommended that you submit an estimate completed by your dental practitioner.

Limitations

1. Laboratory services must be completed in conjunction with other services and will be limited to the co-insurance of such services. Laboratory services that are in excess of 40% of the dentist's fee in the applicable Fee Guide shown in the Schedule of Benefits will be reduced accordingly; co-insurance is then applied;
2. Reimbursement will be made according to standard and/or basic services, supplies or treatment. Related expenses beyond the standard and/or basic services, supplies or treatment will remain your responsibility;
3. Reimbursement will be pro-rated and reduced accordingly, when time spent by the dentist is less than the average time assigned to a dental service procedure code in the applicable Fee Guide shown in the Schedule of Benefits;
4. Reimbursement for root canal therapy will be limited to payment once only per tooth. Extra charges for difficult access, exceptional anatomy, calcified canals and retreatments are not included. The total fee for root canal includes all pulpotomies and pulpectomies performed on the same tooth;
5. Common surfaces on the same tooth/same day will be assessed as one surface. If individual surfaces are restored on the same tooth/same day, payment will be assessed according to the procedure code representing the combined surface. Payment will be limited to a maximum of 5 surfaces in any 36 month period;

6. When more than one surgical procedure, including multiple periodontal surgical procedures, is performed during the same appointment in the same area of the mouth, only the most comprehensive procedure will be eligible for reimbursement, as the fee for each procedure is based on complete, comprehensive treatment, and is deemed part of the multiple services factor;
7. The multiple services factor occurs when a minimum of 6 or more restorations (fillings) or multiple periodontal services are performed at the same appointment and the full fee guide price is charged for each restoration or periodontal service, the first service will be paid in full and all remaining services will be reduced by 20%;
8. Root planing is not eligible if done at the same time as gingival curettage;
9. In the event of a dental accident, claims should be submitted under the health benefit plan before submitting them under the dental plan.

- a) Direct deposit to your personal bank account, when requested;
- b) A reimbursement cheque; or

All dollar maximums and limitations stated are expressed in Canadian dollars. Reimbursement will be made in Canadian or U.S. funds for both providers and plan members, based on the country of the payee.

GSC reserves the right to recover all amounts resulting from overpaid or unsupported claims for benefits by deducting such amounts from future claims and/or by any other legal means.

Limitation on Legal Action

In Ontario, every action or proceeding against GSC for recovery of benefit payment under the plan is absolutely barred unless commenced within the time set out in the *Limitations Act, 2002*.

In British Columbia, Alberta and Manitoba, every action or proceeding against GSC for recovery of benefit payment under the plan is absolutely barred unless commenced within the time set out in the *Insurance Act*.

Direct Payment to the Provider of Service (where applicable)

Present your GSC Identification Card to your provider and, after you pay any applicable co-payment, they may bill GSC directly and in many cases, payment will be made directly to your provider of service. Most providers will also have a supply of claim forms.

Subrogation

GSC retains the right of subrogation if benefits paid on behalf of you or your dependent are or should have been paid or provided by a third party liability. This means that GSC has the right to recover payment for reimbursement where you or your dependent receives reimbursement, in whole or in part, in respect of benefits or payments made or provided by GSC, from a third party or other coverage(s). In cases of third party liability, you must advise your lawyer of our subrogation rights.

Co-ordination of Benefits (COB)

If you are covered for extended health and dental benefits under more than one plan, your benefits under this plan will be coordinated with the other plan so that you may be reimbursed up to 100% of the eligible expense incurred.

Claims must be submitted to the primary payer first. Any unpaid balances should then be submitted to the secondary plan(s). Use the following guidelines to identify the primary and secondary plans:

GSC Plan Member

GSC coverage for you is always primary. If you are the plan member under two group plans, priority goes in the following order:

- The plan where you are a full-time plan member
- The plan where you are a part-time plan member
- The plan where you are a retiree

Spouse

If your spouse is a plan member under another benefit plan, this GSC coverage is always secondary. Your spouse must first submit claims to his/her benefit plan.

Children

When dependent children are covered under both your GSC plan and your spouse's benefit plan, use the following order to determine where to submit the claims:

- The plan of the parent whose birth date (month and day) occurs earliest in the calendar year
- The plan of the parent whose first name begins with the earlier letter of the alphabet, if the parents have the same birth date
- In cases of separation or divorce with multiple benefit plans for the children, the following order applies:
 - The benefit plan of the parent who has custody of the dependent child
 - The plan of the spouse of the parent who has custody of the dependent child
 - The plan of the parent who does not have custody of the dependent child
 - The plan of the spouse of the parent who does not have custody of the dependent child

If the parents have joint custody and both have the children listed as dependents under their plans, claims should first be submitted to the plan of the parent whose birth date (month and day) occurs earliest in the calendar year. Balances can then be submitted to the other parent's plan.

When GSC is identified as a secondary carrier, submit the original Explanation of Benefits statement from the primary carrier and a copy of the claim form in order to receive any balances owing.

Access to Information

If you live in a province where the law permits you to request copies of your records, GSC will provide one copy of the following at no charge:

- a) any enrollment form you completed for coverage under this plan that was submitted to GSC;
- b) any written statements or other record about your health that you submitted to GSC during the course of applying for coverage under this plan;
- c) one copy of the group contract.

GSC may charge you to provide any additional copies.
